In each area below, determine a realistic, attainable goal that corresponds with your state's goals and responds to the program needs in your district. Program areas to be addressed include full textbook distribution, effective outreach, working with your state coordinator to create professional development opportunities, conducting simulated congressional district hearings, effective follow-up, and establishing and maintaining congressional contacts. Although all six areas need to be addressed, you can concentrate on those that you believe are priorities for the 2001-02 program year.
